Your guide to Premiums, Excesses, Discounts and Claim Payments

The Premiums, Excesses, Discounts and Claim Payments (**Guide**) is designed to provide you with additional information about how we calculate premiums and determine excesses and discounts for the policy. You should read this Guide together with our Home & Contents Insurance Product Disclosure Statement (**PDS**) dated 19 October 2012. Words defined in the PDS have the same meaning in this Guide.

This guide applies to policies from 16 February 2016.

About your premium

The premium is the amount you pay us for your insurance. It reflects what we consider is the likelihood of you making a claim, other factors related to our cost of doing business and any discounts we give you, stamp duty, goods and services tax (GST) and fire services levy (FSL) if applicable in your state or territory. Your certificate of insurance will show you how much you have to pay.

When we calculate your premium there are a range of factors we take into account. The importance we place on the factors we use can change and how these factors combine to affect your premium will differ from person to person.

Each time you renew your insurance your premium is likely to change, even if your personal circumstances have not changed. This is because the premium you pay is also affected by other things including:

- The cost of claims we have paid to other customers and claims we expect to pay in the future;
- New and updated data we use to calculate your premium;
- Changes in government taxes and any state or territory duties or levies;
- Our expenses of doing business;
- Other commercial factors.

When determining your renewal premium, we also consider how much you paid last time. As such we may limit movements up or down.

Significant factors affecting your premium include a combination of some of the following:

Factor
The address of the insured home or unit
Sum insured
The type of insurance you have chosen (home, contents or both)
The level of cover you have chosen (Classic, Classic Extras or Classic Advantages)
Any optional covers you have chosen
Construction material and other characteristics of the home or unit
Age of the oldest named insured
How the home or unit is occupied
The standard excess you choose
Risk mitigation measures (in certain locations)

Paying by the month

Your premium will be higher if you choose to pay by the month, rather than annually.

Premium discounts

Discounts are also a significant factor that can affect your premium. The premium you pay for your insurance includes any discounts we have given you. Any discounts are usually applied before the application of government taxes and charges.

The main discounts we offer are:

- Multi-policy discount;
- QLD Seniors Card discount.

From time to time we might also offer discounts or some other special offer as part of a marketing campaign. If we do this, separate terms and conditions will usually apply. The amount and type of discounts that may be offered can change or be withdrawn.

Multi-policy discount

A multi-policy discount rewards you with a discount off your premium for holding three or more eligible paid personal insurance policies with us. There must be a common mailing address and the person(s) seeking the discount must be nominated as an insured with the same name on each eligible policy. If you take out a new policy which means you qualify for the multi-policy discount, you are eligible to receive the discount on that new policy immediately and on your other existing policies from their next renewal date, provided you still qualify. If you believe you are eligible for the multi-policy discount but it is not shown on your certificate of insurance, please contact us. Eligible personal insurance policies are home, contents, car, motorhome, motorcycle, caravan and boat. QLD Compulsory Third Party insurance also counts as an eligible policy but the premium cannot be discounted.

QLD Seniors Card discount

We will give you a discount if you let us know you are a Queensland Seniors Card holder.

Government taxes & charges

Home and Contents Insurance policies are subject to stamp duty, imposed by state and territory governments, GST and in some states, a fire service levy (FSL). These charges are usually applied as the final step in the premium calculation.

Your excess

An excess is the amount you have to pay for each incident when you make a claim.

The amount and types of excesses that apply to your policy are shown on your certificate of insurance. Depending on the circumstances, you might have to pay more than one type of excess when you claim.

The different types of excesses are:

Standard excess

You can choose a standard excess from the levels we offer. The levels we offer usually fall between \$0 and \$5,000.

Additional excess

In some circumstances, an additional excess may apply based on our assessment of the risk. This can be due to reasons such as claims history, location and building type. This excess will appear on your certificate of insurance and is applicable in addition to any other excess unless stated otherwise in the PDS.

Personal valuables excess

The excess that applies for a claim made under personal valuables cover is \$100. The standard excess does not apply to claims made only under optional personal valuables cover.

Injury to pet dogs and cats excess

An excess of \$100 will apply if you make a claim under the optional cover for injury to your pet dogs and cats. The standard excess does not apply to claims under optional injury to pet dogs and cats cover.

Earthquake and tsunami excess

In addition to any other excess, an excess of \$300 will apply if you make a claim for loss or damage as a result of an earthquake or tsunami.

Unoccupied excess

In addition to any other excess, an unoccupied excess of \$1,000 will apply if you claim for loss or damage to your home or contents which occurs when your property has been unoccupied for more than **60** continuous days.

Claim payments

The following examples are designed to illustrate how a claim payment might typically be calculated. The examples do not cover all scenarios or all benefits and do not form part of your policy terms and conditions. They are a guide only. Suncorp Insurance always determines real claim payments on an individual basis, after we have assessed each claim. You should read the PDS and your insurance schedule for full details of what we cover as well as what policy limits, conditions and exclusions apply.

Notes about the claim payment examples:

- all amounts are shown in Australian dollars and are GST inclusive;
- all examples assume that the policy holder is not registered for GST.

Example 1 – Total loss – Home claim

Your home is insured under Classic Extras cover and has a sum insured of \$380,000. Under the Classic Extras cover, the safety net home protection option is automatically included. Your standard excess for home is \$500.

Your city has been hit by a major cyclone and your home was one of many that were destroyed during the event. The scale of the event has caused an immediate surge in demand for building materials and tradespersons resulting in higher rebuilding costs.
